# THE COMPANY

Enraf-Nonius is market leader in the world of physiotherapy and rehabilitation.

We deliver products and services of the highest quality according to the most advanced techniques and make these products available world-wide via our comprehensive, international distributor's network. By handling the highest possible level of quality and service, we enable health centers to look after their patients and clients in the most effective and efficient way, and therapists to guarantee their treatments on a daily basis. Enraf-Nonius contributes to a longer, healthier and happier life.

Quality of life is our corporate social responsibility.

# QUALITY OF LIFE

# ENRAF-NONIUS

## IT STARTED IN 1925

With products for X-ray applications and with equipment for diathermy, Enraf-Nonius's roots lie in the field of medical technology. Shortwave devices for physiotherapy have been manufactured since the company's founding in 1925.

Experience gained over many years, craftsmanship, the alliance with Technical Universities and our world-wide network of distributors have all contributed to the success story of Enraf-Nonius.

## THE PAST AND

Our range of products comprises high-, low- and medium frequency devices, equipment for ultrasound, EMG and laser therapy, infra red radiators, as well as treatment tables, traction-, suspension-, exercise- and measurement equipment and thermo therapy units. Enraf-Nonius has designed and manufactured these physiotherapy products and can boast of an extensive installed base in over 100 countries.

Today SONOPULS, ENDOMED, CURAPULS, MYOMED and MANUMED, are considered brand names and are known world-wide.

# ENRAF-NONIUS

## FOR PRODUCTS AND PROJECTS

Motivated by a passionate interest in movement, Enraf-Nonius has been developing products for mobility experts and is now the specialist for physiotherapy- and rehabilitation products. A world-wide clientele of medical professionals, physiotherapists and movement experts are making use of our quality products on a daily basis. Functionality, reliability and durability are terms which have always been used, then and now, in one breath with Enraf-Nonius products. The newest production techniques, the craftsmanship and the continuous interest of the company to optimize the products with the input of users experiences, are confirming the image of the company with the "Passion for Motion" in which the human being is central and a true "Partner for Life".

## PRODUCTS AND

EN-Projects, a subsidiary of Enraf-Nonius, contributes to the international success and reputation of the company. This specialist in turn-key medical solutions, not only realizes hospital- and rehabilitation projects but also offers procurement and project management. Years of expertise and proven reliability makes EN-Projects an appreciated partner for international government agencies, ministries and health care institutes. EN-Projects has been implementing healthcare facilities in Europe, Latin America, Africa, Asia and the Middle East.

Enraf-Nonius and EN-Projects are complementary in their objective to the improvement of healthcare on a global level, now and in the future!

# ENRAF-NONIUS

## QUALITY

Enraf-Nonius products are designed in accordance with the most stringent requirements for use and safety. Being supplier to institutions and professionals in the medical field, Enraf-Nonius is well aware of its responsibility. Sense of quality is embedded in the Enraf-Nonius organization.

Design, development and manufacturing meet the international standards for medical devices, including the EC Directive 93/42/EEC. The Enraf-Nonius Quality Management System is ISO 13485:2003 and EN ISO 9001:2008 certified.

All our key products have earned the CE marking and comply with the MDD (Medical Devices Directive). They have been registered with, and admitted by, Ministries of Health, in many countries. The name Enraf-Nonius stands for quality and reliability.

## GLOBAL MARKETING AND SALES

Users of Enraf-Nonius products can be found from Amsterdam to Tokyo and from Alert (Northern Canada) to Antarctica. These users are supported by an excellent global sales and marketing network. Wherever you are, there always is an Enraf-Nonius partner nearby to help you with up to date product information and with service capabilities. Enraf-Nonius gives a lot of effort in maintaining a high level of knowledge and invests substantially in knowledge transfer and maintenance of its network of skilled professionals.

In its global marketing Enraf-Nonius can be found at major trade fairs and events like Medica, WCPT and at numerous other congresses and exhibitions. Our products are also intensively used at major sportsmedical facilities, amongst others the Olympic games, the Milanello Sports Centre (AC Milan, Italy), the Royal Dutch Football Association, the World Golf Tournament, and many more facilities. Don't hesitate to contact us in case you want to see our products life in action!

# ENRAF-NONIUS

## RESEARCH AND DEVELOPMENT

Since the foundation of the company in 1925, Enraf-Nonius has had a dedicated in-house Research & Development department. Our engineers, in close co-operation with our product managers and an international group of reputable professionals, design equipment according to customer's demands and the latest developments in the scientific field.

The modular 6-series, units for ultrasound-, EMG, electro- and combination therapy, is only one example of the unique innovations that originate from this co-operation.

Our R&D experts are constantly striving to design products, that not only meet the highest quality requirements and the strictest safety standards, but that are functional, contemporary and user-friendly.

# R & D

# LOGISTICS

Logistics has become a core activity for Enraf-Nonius. On a daily basis, our staff handles numerous shipments to customers in The Netherlands, Europe and countries world-wide, with expertise, dedication and care.

Purchasing, quality control of both incoming and outgoing goods, warehousing, repair & technical support and the assembly of the 6-series, treatment couches and treadmills are also part of the activities.

Thanks to our growing business and increasing demand of space a brand new, ultramodern logistic center, geographically situated on the intersection of the Netherlands - Germany and Belgium, is built in Echt (The Netherlands).

# ENRAF-NONIUS

## FUTURE

Enraf-Nonius has always been characterized as market leader in the world of physiotherapy, with its unprecedented quality equipment. The basis for our unparalleled success formula was established in the past: the coming together of expertise, the delivery of quality and customer orientation.

Enraf-Nonius has been at the top of its field of physiotherapy equipment for many decades, and from this background, as well as from our passion for technology and motion, we look forward to supplying the world with state-of-the-art products for physiotherapy treatment methods.

Enraf-Nonius will continue to work to help improve the quality of life of all people.
